Miscellaneous supplies for ink preparation

• Empty pots, empty buckets (with covers)

1 l (boxes of 14, ref. 2542080) empty pots and 5 l (boxes of 6, ref. 2542070) empty buckets made from black polyethylene, to prepare ink/thinner mixtures easily.

• Mixing cups (with covers)

Sold in packets of 25, made from transparent polypropylene, resist all solvents. Flexible and unbreakable, they contain 250 ml (ref. 2542060) and 550 ml (ref. 2542062). Extremely useful when mixing and diluting with graduations printed on the side.

• Wooden sticks

Two models suitable for the mixing cups, 1 l empty pot (ref. 2542020) and 5 l empty bucket (ref. 2542040). A very useful accessory when mixing in the ink boxes.

• Mixing knives

Two models suitable for the 1 l empty pot and 5 l empty bucket.

Stainless steel blade, 150 mm (ref. 2540150) or 250 mm (ref. 2540250) long. Used to mix and prepare inks.

• 8 kg ink weight scale precision 0,1 (ref. 2548800)

A must for all silkscreening workshops. Simple, practical and reliable, range 0 to 8000 grams, accurate to the nearest gram.

• Pantone® colour chart (ref. 2540120)

Tiflex manufactures and sells numerous types of ink compatible with the "Pantone tinting guide". This guide includes a selection of 1000 hues from the Pantone colour chart. The formulation of each hue is given, in order to quickly mix these 1341 Pantone hues.

Miscellaneous printing supplies.

• Spatulas

Available in dimensions of 100 mm (ref. 2540040) and 140 mm (ref. 2540050) wide, our stainless steel spatulas have rounded corners to avoid tearing the fabric.

• Stop-Sec drying inhibitor (freon-free)*

Sold individually or in boxes of 6 x 500 ml (100 mm, ref. 2540045), (140 mm, ref. 2540055) aerosol sprays. By spraying on this drying inhibitor before the end of each print run, the next job can be immediately restarted without cleaning the screen and without modifying the ink characteristics.

• Aerofix S (freon-free)* (ref. 25D1815)

Sold in boxes of 12 x 600 ml aerosol sprays, this adhesive is especially designed to hold the fabrics while printing.

• Takter 1* (ref. 25D1720)

Sold in boxes of 12 x 500 ml aerosol sprays, water based adhesive to fix fabric on the printing board.

• Takter 4000* (ref. 25D1830)

Solvent based spray adhesive (600 ml) used to hold the fabric on the pallet. High resistance to flashcure. Can be applied for embroidery.

• Water based glue* 0381 (ref. 3344079)

Packed in 5 Kg bucket, water base glue applied by foam roll or brush on pallet. Can be mixed with water. Should be flash cured before first to release the stickering power.

• Pneumatic glue gun for pallet (ref. 2547500)

Pneumatic glue gun compatible with the glue (ref 25D3910).

• PVC shims for feeding

Packed in bags of 25 shims, thickness 0.4 mm (ref. 2542504) and 1 mm (ref. 2542510), they make it easier to position the printed sheets.

• Temperature indicators (ref. 2547000)

Packed in bags of 30 strips, they indicate temperatures from 138 to 188°C.

Miscellaneous cleaning supplies

• Clean cloths (ref. 2545050)

Delivered in 10 kg bags.

• Cellulose wadding (ref. 2545012)

Rolls of approximately 1500 precut sheets, dimensions 35 x 26 cm, supplied in packs of 2.

• Humidifier can, 1.9 l (ref. 2546020)

The cleaning solvent is quickly applied on the cloth or the wadding with this practical can.

Miscellaneous hygiene supplies

• Protective gloves (ref. 2546050)

Offering full protection against solvents, they protect the hands and forearms.

• Disposable latex gloves (ref. 2546055)

Packed in boxes of 100 gloves, for hand protection.

• Gel soap (ref 2580022)

In 5 l cans, cleans any traces of ink on the hands whilst softening the skin.

Biodegradable. A dispenser pump and wall support are also available for this soap can.
